

Recombinant Sheep Nitric oxide synthase, endothelial (NOS3)

| | |
|--------------------------|--|
| Product Code | CSB-EP015946SH-B |
| Storage | Store at -20°C, for extended storage, conserve at -20°C or -80°C. |
| Uniprot No. | P79209 |
| Product Type | Recombinant Protein |
| Immunogen Species | Ovis aries (Sheep) |
| Purity | ≥85% (SDS-PAGE) |
| Sequence | VAVCMDLDTR TTSSLWKDKA AVEINLAVLH SFQLAKVTIV DHHAATVSFM KHLNEQKAR GGCPADWAWI VPPISGSLTP VFHQEMVNYV LSPAFRYQP |
| Source | E.coli |
| Target Names | NOS3 |
| Protein Names | Recommended name: Nitric oxide synthase, endothelial EC= 1.14.13.39 Alternative name(s): Constitutive NOS Short name= cNOS EC-NOS Endothelial NOS Short name= eNOS NOS type III Short name= NOSIII |
| Expression Region | 1-99 |
| Notes | Repeated freezing and thawing is not recommended. Store working aliquots at 4°C for up to one week. |
| Tag Info | Tag type will be determined during the manufacturing process. |
| Protein Length | Full length protein |
| Target Details | Nitric oxide is a reactive free radical which acts as a biologic mediator in several processes, including neurotransmission and antimicrobial and antitumoral activities. Nitric oxide is synthesized from L-arginine by nitric oxide synthases. Variations in this gene are associated with susceptibility to coronary spasm. Multiple transcript variants encoding different isoforms have been found for this gene. |
| Reconstitution | We recommend that this vial be briefly centrifuged prior to opening to bring the contents to the bottom. Please reconstitute protein in deionized sterile water to a concentration of 0.1-1.0 mg/mL. We recommend to add 5-50% of glycerol (final concentration) and aliquot for long-term storage at -20°C/-80°C. Our default final concentration of glycerol is 50%. Customers could use it as reference. |
| Shelf Life | The shelf life is related to many factors, storage state, buffer ingredients, storage temperature and the stability of the protein itself. Generally, the shelf life of liquid form is 6 months at -20°C/-80°C. The shelf life of lyophilized form is 12 months at -20°C/-80°C. |
