Immunogen SpeciesHomo sapiens (Human)Target NamesCHMP1ATarget DetailsThis gene encodes a member of the CHMP/Chmp family of proteins which a involved in multivesicular body sorting of proteins to the interiors of lysosome The initial prediction of the protein sequence encoded by this gene suggester that the encoded protein was a metallopeptidase. The nomenclature has been	Alias	chromatin modifying protein 1A;CHMP1A;CHMP1;KIAA0047;PCOLN3;PRSM1;
Target Names CHMP1A   Target Details This gene encodes a member of the CHMP/Chmp family of proteins which a involved in multivesicular body sorting of proteins to the interiors of lysosom. The initial prediction of the protein sequence encoded by this gene suggester that the encoded protein was a metallopeptidase. The nomenclature has been sequence that the encoded protein was a metallopeptidase.	Product Type	Purified Rabbit Anti human PolyClonal Antibody
Target Details This gene encodes a member of the CHMP/Chmp family of proteins which a involved in multivesicular body sorting of proteins to the interiors of lysosom. The initial prediction of the protein sequence encoded by this gene suggested that the encoded protein was a metallopeptidase. The nomenclature has been been been been been been been bee	Immunogen Species	Homo sapiens (Human)
involved in multivesicular body sorting of proteins to the interiors of lysosom The initial prediction of the protein sequence encoded by this gene suggested that the encoded protein was a metallopeptidase. The nomenclature has be	Target Names	CHMP1A
	Target Details	This gene encodes a member of the CHMP/Chmp family of proteins which are involved in multivesicular body sorting of proteins to the interiors of lysosomes. The initial prediction of the protein sequence encoded by this gene suggested that the encoded protein was a metallopeptidase. The nomenclature has been updated recently to reflect the correct biological function of this encoded protein.
