## GOLGA3 Antibody

CSB-PA009646GA01HU
Upon receipt, store at -20°C or -80°C. Avoid repeated freeze.
Q08378
Human GOLGA3
Rabbit
Human
ELISA,WB,IF
PBS with 0.02% Sodium Azide, 50% Glycerol, pH 7.320°C, Avoid freeze / thaw cycles.
Antigen Affinity purified
IgG
golgi autoantigen, golgin subfamily a, 3;GOLGA3;GCP170;MEA-2;
Purified Rabbit Anti human PolyClonal Antibody
Homo sapiens (Human)
GOLGA3
The Golgi apparatus, which participates in glycosylation and transport of proteins and lipids in the secretory pathway, consists of a series of stacked cisternae (flattened membrane sacs). Interactions between the Golgi and microtubules are thought to be important for the reorganization of the Golgi after it fragments during mitosis. This gene encodes a member of the golgin family of proteins which are localized to the Golgi. Its encoded protein has been postulated to play a role in nuclear transport and Golgi apparatus localization. Several alternatively spliced transcript variants of this gene have been described, but the full-length nature of these variants has not been determined.
