

LCAT Antibody

Product CodeCSB-PA012783GA01HUStorageUpon receipt, store at -20°C or -80°C. Avoid repeated freeze.Uniprot No.P04180ImmunogenHuman LCATRaised InRabbitSpecies ReactivityHuman,Mouse,RatTested ApplicationsELISA,WBStorage BufferPBS with 0.02% Sodium Azide, 50% Glycerol, pH 7.320°C, Avoid freeze / thaw cycles.Purification MethodAntigen Affinity PurifiedIsotypeIgGAliaslecithin-cholesterol acyltransferase;Product TypePurified Rabbit Anti human PolyClonal AntibodyImmunogen SpeciesHomo sapiens (Human)Target NamesLCATLarget DetailsThis gene encodes the extracellular cholesterol esterifying enzyme, lecithin-cholesterol acyltransferase. The esterification of cholesterol is required for cholesterol transport. Mutations in this gene have been found to cause fish-eye disease as well as LCAT deficiency.		
Uniprot No. P04180 Immunogen Human LCAT Raised In Rabbit Species Reactivity Human,Mouse,Rat Tested Applications ELISA,WB Storage Buffer PBS with 0.02% Sodium Azide, 50% Glycerol, pH 7.320°C, Avoid freeze / thaw cycles. Purification Method Antigen Affinity Purified Isotype IgG Alias lecithin-cholesterol acyltransferase; Product Type Purified Rabbit Anti human PolyClonal Antibody Immunogen Species Homo sapiens (Human) Target Names LCAT Target Details This gene encodes the extracellular cholesterol esterifying enzyme, lecithin-cholesterol acyltransferase. The esterification of cholesterol is required for cholesterol transport. Mutations in this gene have been found to cause fish-eye	Product Code	CSB-PA012783GA01HU
Immunogen Human LCAT Raised In Rabbit Species Reactivity Human,Mouse,Rat Tested Applications ELISA,WB Storage Buffer PBS with 0.02% Sodium Azide, 50% Glycerol, pH 7.320°C, Avoid freeze / thaw cycles. Purification Method Antigen Affinity Purified Isotype IgG Alias lecithin-cholesterol acyltransferase; Product Type Purified Rabbit Anti human PolyClonal Antibody Immunogen Species Homo sapiens (Human) Target Names LCAT Target Details This gene encodes the extracellular cholesterol esterifying enzyme, lecithin-cholesterol acyltransferase. The esterification of cholesterol is required for cholesterol transport. Mutations in this gene have been found to cause fish-eye	Storage	Upon receipt, store at -20°C or -80°C. Avoid repeated freeze.
Raised In Rabbit Species Reactivity Human,Mouse,Rat Tested Applications ELISA,WB Storage Buffer PBS with 0.02% Sodium Azide, 50% Glycerol, pH 7.320°C, Avoid freeze / thaw cycles. Purification Method Antigen Affinity Purified Isotype IgG Alias lecithin-cholesterol acyltransferase; Product Type Purified Rabbit Anti human PolyClonal Antibody Immunogen Species Homo sapiens (Human) Target Names LCAT Target Details This gene encodes the extracellular cholesterol esterifying enzyme, lecithin-cholesterol acyltransferase. The esterification of cholesterol is required for cholesterol transport. Mutations in this gene have been found to cause fish-eye	Uniprot No.	P04180
Species ReactivityHuman, Mouse, RatTested ApplicationsELISA, WBStorage BufferPBS with 0.02% Sodium Azide, 50% Glycerol, pH 7.320°C, Avoid freeze / thaw cycles.Purification MethodAntigen Affinity PurifiedIsotypeIgGAliaslecithin-cholesterol acyltransferase;Product TypePurified Rabbit Anti human PolyClonal AntibodyImmunogen SpeciesHomo sapiens (Human)Target NamesLCATTarget DetailsThis gene encodes the extracellular cholesterol esterifying enzyme, lecithin-cholesterol acyltransferase. The esterification of cholesterol is required for cholesterol transport. Mutations in this gene have been found to cause fish-eye	Immunogen	Human LCAT
Tested ApplicationsELISA,WBStorage BufferPBS with 0.02% Sodium Azide, 50% Glycerol, pH 7.320°C, Avoid freeze / thaw cycles.Purification MethodAntigen Affinity PurifiedIsotypeIgGAliaslecithin-cholesterol acyltransferase;Product TypePurified Rabbit Anti human PolyClonal AntibodyImmunogen SpeciesHomo sapiens (Human)Target NamesLCATTarget DetailsThis gene encodes the extracellular cholesterol esterifying enzyme, lecithin-cholesterol acyltransferase. The esterification of cholesterol is required for cholesterol transport. Mutations in this gene have been found to cause fish-eye	Raised In	Rabbit
Storage Buffer PBS with 0.02% Sodium Azide, 50% Glycerol, pH 7.320°C, Avoid freeze / thaw cycles. Purification Method Antigen Affinity Purified Isotype IgG Alias Iecithin-cholesterol acyltransferase; Product Type Purified Rabbit Anti human PolyClonal Antibody Immunogen Species Homo sapiens (Human) Target Names LCAT Target Details This gene encodes the extracellular cholesterol esterifying enzyme, lecithin-cholesterol acyltransferase. The esterification of cholesterol is required for cholesterol transport. Mutations in this gene have been found to cause fish-eye	Species Reactivity	Human,Mouse,Rat
Purification Method Antigen Affinity Purified Isotype IgG Alias lecithin-cholesterol acyltransferase; Product Type Purified Rabbit Anti human PolyClonal Antibody Immunogen Species Homo sapiens (Human) Target Names LCAT Target Details This gene encodes the extracellular cholesterol esterifying enzyme, lecithin-cholesterol acyltransferase. The esterification of cholesterol is required for cholesterol transport. Mutations in this gene have been found to cause fish-eye	Tested Applications	ELISA,WB
Isotype IgG Alias lecithin-cholesterol acyltransferase; Product Type Purified Rabbit Anti human PolyClonal Antibody Immunogen Species Homo sapiens (Human) Target Names LCAT Target Details This gene encodes the extracellular cholesterol esterifying enzyme, lecithin-cholesterol acyltransferase. The esterification of cholesterol is required for cholesterol transport. Mutations in this gene have been found to cause fish-eye	Storage Buffer	
Alias lecithin-cholesterol acyltransferase; Product Type Purified Rabbit Anti human PolyClonal Antibody Immunogen Species Homo sapiens (Human) Target Names LCAT Target Details This gene encodes the extracellular cholesterol esterifying enzyme, lecithin-cholesterol acyltransferase. The esterification of cholesterol is required for cholesterol transport. Mutations in this gene have been found to cause fish-eye	Purification Method	Antigen Affinity Purified
Product Type Purified Rabbit Anti human PolyClonal Antibody Immunogen Species Homo sapiens (Human) Target Names LCAT Target Details This gene encodes the extracellular cholesterol esterifying enzyme, lecithin-cholesterol acyltransferase. The esterification of cholesterol is required for cholesterol transport. Mutations in this gene have been found to cause fish-eye	Isotype	IgG
Immunogen Species Homo sapiens (Human) Target Names LCAT Target Details This gene encodes the extracellular cholesterol esterifying enzyme, lecithin-cholesterol acyltransferase. The esterification of cholesterol is required for cholesterol transport. Mutations in this gene have been found to cause fish-eye	Alias	lecithin-cholesterol acyltransferase;
Target Names LCAT Target Details This gene encodes the extracellular cholesterol esterifying enzyme, lecithin-cholesterol acyltransferase. The esterification of cholesterol is required for cholesterol transport. Mutations in this gene have been found to cause fish-eye	Product Type	Purified Rabbit Anti human PolyClonal Antibody
Target Details This gene encodes the extracellular cholesterol esterifying enzyme, lecithin-cholesterol acyltransferase. The esterification of cholesterol is required for cholesterol transport. Mutations in this gene have been found to cause fish-eye	Immunogen Species	Homo sapiens (Human)
cholesterol acyltransferase. The esterification of cholesterol is required for cholesterol transport. Mutations in this gene have been found to cause fish-eye	Target Names	LCAT
	Target Details	cholesterol acyltransferase. The esterification of cholesterol is required for cholesterol transport. Mutations in this gene have been found to cause fish-eye
