## LTF Antibody

Product CodeCSB-PA013229GA01HUStorageUpon receipt, store at -20°C or -80°C. Avoid repeated freeze.Uniprot No.P02788ImmunogenHuman LTFRaised InRabbitSpecies ReactivityHumanTested ApplicationsELISA,IHCStorage BufferPBS with 0.1% Sodium Azide, 50% Glycerol, pH 7.320°C, Avoid freeze / thaw cycles.Purification MethodAntigen Affinity PurifiedIsotypeIgGAliasIactotransferrin;LTF;GIG12;HLF2;LF ;Product TypePurified Rabbit Anti human PolyClonal AntibodyImmunogen SpeciesThis gene is a member of the transferrin family of genes and its protein product is found in the secondary granules of neutrophils. The protein is a major iron- binding protein in milk and body secretions with an antimicrobial activity, making it an important component of the non-specific immune system. The protein genosatisk, host defense against a broad range of microbial infections, anti- inflammatory activity, regulation of cellular growth and differentiation and protection against cancer development and metastasis.		
Uniprot No.P02788Uniprot No.P02788ImmunogenHuman LTFRaised InRabbitSpecies ReactivityHumanTested ApplicationsELISA,IHCStorage BufferPBS with 0.1% Sodium Azide, 50% Glycerol, pH 7.320°C, Avoid freeze / thaw cycles.Purification MethodAntigen Affinity PurifiedIsotypeIgGAliaslactotransferrin;LTF;GIG12;HLF2;LF ;Product TypePurified Rabbit Anti human PolyClonal AntibodyImmunogen SpeciesHomo sapiens (Human)Target NamesLTFTarget DetailsThis gene is a member of the transferrin family of genes and its protein product is found in the secondary granules of neutrophils. The protein is a major iron- binding protein in milk and body secretions with an antimicrobial activity, making it an important component of the non-specific immune system. The protein demonstrates a broad spectrum of properties, including regulation of iron homeostasis, host defense against a broad range of microbial infections, anti- inflammatory activity, regulation of cellular growth and differentiation and	Product Code	CSB-PA013229GA01HU
ImmunogenHuman LTFRaised InRabbitSpecies ReactivityHumanTested ApplicationsELISA,IHCStorage BufferPBS with 0.1% Sodium Azide, 50% Glycerol, pH 7.320°C, Avoid freeze / thaw cycles.Purification MethodAntigen Affinity PurifiedIsotypeIgGAliaslactotransferrin;LTF;GIG12;HLF2;LF ;Product TypePurified Rabbit Anti human PolyClonal AntibodyImmunogen SpeciesHomo sapiens (Human)Target NamesLTFTarget DetailsThis gene is a member of the transferrin family of genes and its protein product is found in the secondary granules of neurophils. The protein is a major iron- binding protein in milk and body secretions with an antimicrobial activity, making it an important component of the non-specific immune system. The protein demonstrates a broad spectrum of properties, including regulation of iron homeostasis, host defense against a broad range of microbial infections, anti- inflammatory activity, regulation of cellular growth and differentiation and	Storage	Upon receipt, store at -20°C or -80°C.
