

CCND1 Antibody

Product Code	CSB-PA004811KA01HU
Storage	Upon receipt, store at -20°C or -80°C. Avoid repeated freeze.
Uniprot No.	P24385
Immunogen	A synthetic peptide of Human Cyclin D1
Raised In	Rabbit
Species Reactivity	Human,Mouse,Rat
Tested Applications	ELISA,WB,IHC,ICC,IP;WB:1:500-1:1000,IHC:1:50-1:100,ICC:1:50-1:100,IP:1:20-1:50
Storage Buffer	Store at -20°C or -80°C. Avoid freeze / thaw cycles. Buffer: PBS with 0.02% sodium azide, 50% glycerol, pH7.3.
Purification Method	Affinity purification
Isotype	IgG
Alias	CCND1;BCL1;D11S287E;PRAD1;U21B31;G1/S-specific cyclin-D1;BCL-1 oncogene ;PRAD1 oncogene
Product Type	Rabbit Anti Human PolyClonal Antibody
Immunogen Species	Homo sapiens (Human)
Research Area	Cell Cycle
Intended Use	For research use only. Not for human, diagnostic or therapeutic use.
Target Names	CCND1

Western blot analysis of MCF-7 cell lysate ,using Cyclin D1 antibody.

Target Details

This protein belongs to the highly conserved cyclin family, whose members are characterized by a dramatic periodicity in protein abundance throughout the cell cycle. Cyclins function as regulators of CDK kinases. Different cyclins exhibit distinct expression and degradation patterns which contribute to the temporal coordination of each mitotic event. This cyclin forms a complex with and functions as a regulatory subunit of CDK4 or CDK6, whose activity is required for cell cycle G1/S transition. This protein has been shown to interact with tumor

suppressor protein Rb and the expression of this gene is regulated positively by Rb. Mutations, amplification and overexpression of this gene, which alters cell cycle progression, are observed frequently in a variety of tumors and may contribute to tumorigenesis.
