

# fla Antibody, FITC conjugated

|                     |                                                                                   |
|---------------------|-----------------------------------------------------------------------------------|
| Product Code        | CSB-PA319964LC01BUD                                                               |
| Storage             | Upon receipt, store at -20°C or -80°C. Avoid repeated freeze.                     |
| Uniprot No.         | P11089                                                                            |
| Immunogen           | Recombinant Borrelia burgdorferi Flagellar filament 41 kDa core protein (1-336AA) |
| Raised In           | Rabbit                                                                            |
| Species Reactivity  | Borrelia burgdorferi                                                              |
| Form                | Liquid                                                                            |
| Conjugate           | FITC                                                                              |
| Storage Buffer      | Preservative: 0.03% Proclin 300<br>Constituents: 50% Glycerol, 0.01M PBS, PH 7.4  |
| Purification Method | >95%, Protein G purified                                                          |
| Isotype             | IgG                                                                               |
| Clonality           | Polyclonal                                                                        |
| Alias               | Flagellar filament 41 kDa core protein (Flagellin) (41 kDa antigen) (P41), fla    |
| Immunogen Species   | Borrelia burgdorferi (strain ATCC 35210 / B31 / CIP 102532 / DSM 4680)            |
| Research Area       | Others                                                                            |
| Target Names        | fla                                                                               |
| Usage               | For Research Use Only. Not for use in diagnostic or therapeutic procedures.       |
