CD14 Antibody

cycles.Purification MethodAntigen Affinity purifiedIsotypeIgGAliasCD14 molecule;Product TypePurified Rabbit Anti human PolyClonal AntibodyImmunogen SpeciesHomo sapiens (Human)Target NamesCD14CD14 is a surface protein preferentially expressed on monocytes/macrophages		
Uniprot No.P08571ImmunogenHuman CD14Raised InRabbitSpecies ReactivityHumanTested ApplicationsELISA,WB,IHCStorage BufferPBS with 0.1% Sodium Azide, 50% Glycerol, pH 7.320°C, Avoid freeze / that cycles.Purification MethodAntigen Affinity purifiedIsotypeIgGAliasCD14 molecule;Product TypePurified Rabbit Anti human PolyClonal AntibodyImmunogen SpeciesHomo sapiens (Human)Target NamesCD14CD14 is a surface protein preferentially expressed on monocytes/macrophages It binds lipopolysaccharide binding protein and recently has been shown to bin apoptotic cells. Alternative splicing results in multiple transcript variants	Product Code	CSB-PA004879GA01HU
ImmunogenHuman CD14Raised InRabbitSpecies ReactivityHumanTested ApplicationsELISA,WB,IHCStorage BufferPBS with 0.1% Sodium Azide, 50% Glycerol, pH 7.320°C, Avoid freeze / that cycles.Purification MethodAntigen Affinity purifiedIsotypeIgGAliasCD14 molecule;Product TypePurified Rabbit Anti human PolyClonal AntibodyImmunogen SpeciesHomo sapiens (Human)Target NamesCD14CD14 is a surface protein preferentially expressed on monocytes/macrophages t binds lipopolysaccharide binding protein and recently has been shown to bind apoptotic cells. Alternative splicing results in multiple transcript variants	Storage	Upon receipt, store at -20°C or -80°C. Avoid repeated freeze.
Raised InRabbitSpecies ReactivityHumanTested ApplicationsELISA,WB,IHCStorage BufferPBS with 0.1% Sodium Azide, 50% Glycerol, pH 7.320°C, Avoid freeze / that cycles.Purification MethodAntigen Affinity purifiedIsotypeIgGAliasCD14 molecule;Product TypePurified Rabbit Anti human PolyClonal AntibodyImmunogen SpeciesHomo sapiens (Human)Target NamesCD14CD14 is a surface protein preferentially expressed on monocytes/macrophages It binds lipopolysaccharide binding protein and recently has been shown to bind apoptotic cells. Alternative splicing results in multiple transcript variants	Uniprot No.	P08571
Species ReactivityHumanTested ApplicationsELISA,WB,IHCStorage BufferPBS with 0.1% Sodium Azide, 50% Glycerol, pH 7.320°C, Avoid freeze / that cycles.Purification MethodAntigen Affinity purifiedIsotypeIgGAliasCD14 molecule;Product TypePurified Rabbit Anti human PolyClonal AntibodyImmunogen SpeciesHomo sapiens (Human)Target NamesCD14CD14 is a surface protein preferentially expressed on monocytes/macrophages It binds lipopolysaccharide binding protein and recently has been shown to bind apoptotic cells. Alternative splicing results in multiple transcript variants	Immunogen	Human CD14
Tested ApplicationsELISA,WB,IHCStorage BufferPBS with 0.1% Sodium Azide, 50% Glycerol, pH 7.320°C, Avoid freeze / that cycles.Purification MethodAntigen Affinity purifiedIsotypeIgGAliasCD14 molecule;Product TypePurified Rabbit Anti human PolyClonal AntibodyImmunogen SpeciesHomo sapiens (Human)Target NamesCD14CD14 is a surface protein preferentially expressed on monocytes/macrophages It binds lipopolysaccharide binding protein and recently has been shown to bind apoptotic cells. Alternative splicing results in multiple transcript variants	Raised In	Rabbit
Storage BufferPBS with 0.1% Sodium Azide, 50% Glycerol, pH 7.320°C, Avoid freeze / that cycles.Purification MethodAntigen Affinity purifiedIsotypeIgGAliasCD14 molecule;Product TypePurified Rabbit Anti human PolyClonal AntibodyImmunogen SpeciesHomo sapiens (Human)Target NamesCD14CD14 is a surface protein preferentially expressed on monocytes/macrophages It binds lipopolysaccharide binding protein and recently has been shown to bind apoptotic cells. Alternative splicing results in multiple transcript variants	Species Reactivity	Human
cycles.Purification MethodAntigen Affinity purifiedIsotypeIgGAliasCD14 molecule;Product TypePurified Rabbit Anti human PolyClonal AntibodyImmunogen SpeciesHomo sapiens (Human)Target NamesCD14CD14 is a surface protein preferentially expressed on monocytes/macrophages It binds lipopolysaccharide binding protein and recently has been shown to bind apoptotic cells. Alternative splicing results in multiple transcript variants	Tested Applications	ELISA,WB,IHC
IsotypeIgGAliasCD14 molecule;Product TypePurified Rabbit Anti human PolyClonal AntibodyImmunogen SpeciesHomo sapiens (Human)Target NamesCD14CD14CD14 is a surface protein preferentially expressed on monocytes/macrophages It binds lipopolysaccharide binding protein and recently has been shown to bind apoptotic cells. Alternative splicing results in multiple transcript variants	Storage Buffer	PBS with 0.1% Sodium Azide, 50% Glycerol, pH 7.320°C, Avoid freeze / thaw cycles.
AliasCD14 molecule;Product TypePurified Rabbit Anti human PolyClonal AntibodyImmunogen SpeciesHomo sapiens (Human)Target NamesCD14CD14CD14 is a surface protein preferentially expressed on monocytes/macrophages It binds lipopolysaccharide binding protein and recently has been shown to bind apoptotic cells. Alternative splicing results in multiple transcript variants	Purification Method	Antigen Affinity purified
Product TypePurified Rabbit Anti human PolyClonal AntibodyImmunogen SpeciesHomo sapiens (Human)Target NamesCD14CD14CD14 is a surface protein preferentially expressed on monocytes/macrophages It binds lipopolysaccharide binding protein and recently has been shown to bind apoptotic cells. Alternative splicing results in multiple transcript variants	Isotype	IgG
Immunogen Species Homo sapiens (Human) Target Names CD14 CD14 is a surface protein preferentially expressed on monocytes/macrophages It binds lipopolysaccharide binding protein and recently has been shown to bind apoptotic cells. Alternative splicing results in multiple transcript variants	Alias	CD14 molecule;
Target Names CD14 Target Details CD14 is a surface protein preferentially expressed on monocytes/macrophages It binds lipopolysaccharide binding protein and recently has been shown to bind apoptotic cells. Alternative splicing results in multiple transcript variants	Product Type	Purified Rabbit Anti human PolyClonal Antibody
Target Details CD14 is a surface protein preferentially expressed on monocytes/macrophages It binds lipopolysaccharide binding protein and recently has been shown to bind apoptotic cells. Alternative splicing results in multiple transcript variants	Immunogen Species	Homo sapiens (Human)
It binds lipopolysaccharide binding protein and recently has been shown to bind apoptotic cells. Alternative splicing results in multiple transcript variants	Target Names	CD14
