

## MRPS18A Antibody

| <b>Product Code</b>        | CSB-PA014891GA01HU   |
|----------------------------|--|
| Storage                    | Upon receipt, store at -20°C or -80°C. Avoid repeated freeze.  |
| Uniprot No.                | Q9NVS2   |
| Immunogen                  | Human MRPS18A  |
| Raised In                  | Rabbit   |
| Species Reactivity         | Human,Mouse,Rat  |
| <b>Tested Applications</b> | ELISA,WB   |
| Storage Buffer             | PBS with 0.1% Sodium Azide, 50% Glycerol, pH 7.320°C, Avoid freeze / thaw cycles.  |
| <b>Purification Method</b> | Antigen Affinity purified  |
| Isotype                    | IgG  |
| Alias                      | mitochondrial ribosomal protein S18A;MRPS18A;FLJ10548;HumanS18b;MRP-S18-3;MRPS18-3;S18bmt;   |
| Product Type               | Purified Rabbit Anti human PolyClonal Antibody   |
| Immunogen Species          | Homo sapiens (Human)   |
| Target Names               | MRPS18A  |
| Target Details             | Mammalian mitochondrial ribosomal proteins are encoded by nuclear genes and help in protein synthesis within the mitochondrion. Mitochondrial ribosomes (mitoribosomes) consist of a small 28S subunit and a large 39S subunit. They have an estimated 75% protein to rRNA composition compared to prokaryotic ribosomes, where this ratio is reversed. Another difference between mammalian mitoribosomes and prokaryotic ribosomes is that the latter contain a 5S rRNA. Among different species, the proteins comprising the mitoribosome differ greatly in sequence, and sometimes in biochemical properties, which prevents easy recognition by sequence homology. This gene encodes a 28S subunit protein that belongs to the ribosomal protein S18P family. The encoded protein is one of three that has significant sequence similarity to bacterial S18 proteins. The |

primary sequences of the three human mitochondrial S18 proteins are no more closely related to each other than they are to the prokaryotic S18 proteins. A

pseudogene corresponding to this gene is found on chromosome 3p.
