

# Recombinant Human Bone morphogenetic protein 3B (GDF10)

<b>Product Code</b>	CSB-MP009343HU
<b>Storage</b>	Store at -20°C, for extended storage, conserve at -20°C or -80°C.
<b>Uniprot No.</b>	P55107
<b>Product Type</b>	Recombinant Protein
<b>Immunogen Species</b>	Homo sapiens (Human)
<b>Purity</b>	>85% (SDS-PAGE)
<b>Sequence</b>	QW DEPRVCSRRY LKVDFADIGW NEWIISPKSF DAYYCAGACE FPMPKIVRPS NHATIQSIVR AVGIIPGIPE PCCVPMKMS LGVLFLENR NVVLKVYPNM SVDTACR
<b>Source</b>	Mammalian cell
<b>Target Names</b>	GDF10
<b>Protein Names</b>	Recommended name: Bone morphogenetic protein 3B Short name= BMP-3B Alternative name(s): Bone-inducing protein Short name= BIP Growth/differentiation factor 10 Short name= GDF-10
<b>Expression Region</b>	369-478
<b>Notes</b>	Repeated freezing and thawing is not recommended. Store working aliquots at 4°C for up to one week.
<b>Tag Info</b>	Tag type will be determined during the manufacturing process.
<b>Protein Length</b>	Full Length of Mature Protein
<b>Target Details</b>	This protein is a member of the bone morphogenetic protein (BMP) family and the TGF-beta superfamily. This group of proteins is characterized by a polybasic proteolytic processing site which is cleaved to produce a mature protein containing seven conserved cysteine residues. The members of this family are regulators of cell growth and differentiation in both embryonic and adult tissues. Studies in mice suggest that This protein plays a role in skeletal morphogenesis.
<b>Reconstitution</b>	We recommend that this vial be briefly centrifuged prior to opening to bring the contents to the bottom. Please reconstitute protein in deionized sterile water to a concentration of 0.1-1.0 mg/mL. We recommend to add 5-50% of glycerol (final concentration) and aliquot for long-term storage at -20°C/-80°C. Our default final concentration of glycerol is 50%. Customers could use it as reference.
<b>Shelf Life</b>	The shelf life is related to many factors, storage state, buffer ingredients, storage temperature and the stability of the protein itself. Generally, the shelf life of liquid form is 6 months at -20°C/-80°C. The shelf life of lyophilized form is 12 months at -20°C/-80°C.
