

Recombinant Horse Interleukin-1 receptor antagonist protein (IL1RN)

Product Code	CSB-BP011628HO
Storage	Store at -20°C, for extended storage, conserve at -20°C or -80°C.
Uniprot No.	O18999
Product Type	Recombinant Protein
Immunogen Species	Equus caballus (Horse)
Purity	>85% (SDS-PAGE)
Sequence	HPLGK RPCKMQAFRI WDVNQKTFYM RNNQLVAGYL QESNTKLQEK IDVVPIEPDA LFLGLHGRKL CLACVKSGDE IRFQLEAVNI TDLSKNKEEN KRFTFIRSNS GPTTSFESAA CPGWFLCTAQ EADRPVSLTN KPKESFMVTK FYLQEDQ
Source	Baculovirus
Target Names	IL1RN
Protein Names	Recommended name: Interleukin-1 receptor antagonist protein Short name= IL-1RN Short name= IL-1ra Short name= IRAP Alternative name(s): IL1 inhibitor
Expression Region	26-177
Notes	Repeated freezing and thawing is not recommended. Store working aliquots at 4°C for up to one week.
Tag Info	Tag type will be determined during the manufacturing process.
Protein Length	Full Length of Mature Protein
Target Details	This protein is a member of the interleukin 1 cytokine family. This protein inhibits the activities of interleukin 1, alpha (IL1A) and interleukin 1, beta (IL1B), and modulates a variety of interleukin 1 related immune and inflammatory responses. This gene and five other closely related cytokine genes form a gene cluster spanning approximately 400 kb on chromosome 2. A polymorphism of this gene is reported to be associated with increased risk of osteoporotic fractures and gastric cancer. Four alternatively spliced transcript variants encoding distinct isoforms have been reported.
Reconstitution	We recommend that this vial be briefly centrifuged prior to opening to bring the contents to the bottom. Please reconstitute protein in deionized sterile water to a concentration of 0.1-1.0 mg/mL. We recommend to add 5-50% of glycerol (final concentration) and aliquot for long-term storage at -20°C/-80°C. Our default final concentration of glycerol is 50%. Customers could use it as reference.
Shelf Life	The shelf life is related to many factors, storage state, buffer ingredients, storage temperature and the stability of the protein itself. Generally, the shelf life of liquid form is 6 months at -20°C/-80°C. The shelf life of lyophilized form is 12 months at -20°C/-80°C.
