

Recombinant Mouse Granzyme K (Gzmk)

Product Code	CSB-EP010084MO-B
Storage	Store at -20°C, for extended storage, conserve at -20°C or -80°C.
Uniprot No.	O35205
Product Type	Recombinant Protein
Immunogen Species	Mus musculus (Mouse)
Purity	>85% (SDS-PAGE)
Sequence	IIGGR EVQPHSRPFM ASIQYRSKHI CGGVLIHPQW VLTAAHCYSW FPRGHSPTVV LGAHSLSKNE PMKQTFEIKK FIPFSRLQSG SASHDIMLIK LRTAAELNKN VQLLHLGSKN YLRDGTKCQV TGWGTTPDL LTASDTLREV TVTIISRKRC NSQSYYNHKP VITKDMICAG DARGQKDSCK GDSGGPLICK GIFHALVSQG YKCGIAKKPG IYLLTKKYQ TWIKSKLAPS RAH
Source	E.coli
Target Names	Gzmk
Protein Names	Recommended name: Granzyme K EC= 3.4.21.-
Expression Region	26-263
Notes	Repeated freezing and thawing is not recommended. Store working aliquots at 4°C for up to one week.
Tag Info	Tag type will be determined during the manufacturing process.
Protein Length	Full Length of Mature Protein
Target Details	This gene product is a member of a group of related serine proteases from the cytoplasmic granules of cytotoxic lymphocytes. Cytolytic T lymphocytes (CTL) and natural killer (NK) cells share the remarkable ability to recognize, bind, and lyse specific target cells. They are thought to protect their host by lysing cells bearing on their surface nonself antigens, usually peptides or proteins resulting from infection by intracellular pathogens. The protein described here lacks consensus sequences for N-glycosylation present in other granzymes.
Reconstitution	We recommend that this vial be briefly centrifuged prior to opening to bring the contents to the bottom. Please reconstitute protein in deionized sterile water to a concentration of 0.1-1.0 mg/mL. We recommend to add 5-50% of glycerol (final concentration) and aliquot for long-term storage at -20°C/-80°C. Our default final concentration of glycerol is 50%. Customers could use it as reference.
Shelf Life	The shelf life is related to many factors, storage state, buffer ingredients, storage temperature and the stability of the protein itself. Generally, the shelf life of liquid form is 6 months at -20°C/-80°C. The shelf life of lyophilized form is 12 months at -20°C/-80°C.
