

Recombinant Human Cartilage-associated protein (CRTAP)

| | |
|--------------------------|--|
| Product Code | CSB-MP005999HU |
| Storage | Store at -20°C, for extended storage, conserve at -20°C or -80°C. |
| Uniprot No. | O75718 |
| Product Type | Recombinant Protein |
| Immunogen Species | Homo sapiens (Human) |
| Purity | >85% (SDS-PAGE) |
| Sequence | QYER YSFRSFP RDE LMPLESAYRH ALDKYSGEHW AESVGYLEIS LRLHRLLRDS EAFCHRNC SA APQPEPAAGL ASYPELRLFG GLLRRAHCLK RCKQGLPAFR QSQPSREVL A DFQRREPYKF LQFAYFKANN LPKAIAAAHT FLLKHPDDEM MKRNMAYYKS LPG AEDIK D LETKSYESLF IRAVRAYNGE NWRTSITDME LALP DFFKAF YECLAACEGS REIKDFKDFY LSIADHYVEV LECKIQCEEN LTPVIGGYPV EK FVATMYHY LQFAYYKLND LKNAAPCAVS YLLFDQNDKV MQQNLVYYQY HRDTWGLSDE HFQPRPEAVQ FFNVTTLQKE LYDFAKENIM DDDEGEVVEY VDDLLELEET S |
| Source | Mammalian cell |
| Target Names | CRTAP |
| Protein Names | Recommended name: Cartilage-associated protein |
| Expression Region | 27-401 |
| Notes | Repeated freezing and thawing is not recommended. Store working aliquots at 4°C for up to one week. |
| Tag Info | Tag type will be determined during the manufacturing process. |
| Protein Length | Full Length of Mature Protein |
| Target Details | This protein is similar to the chicken and mouse CRTAP genes. The encoded protein is a scaffolding protein that may influence the activity of at least one member of the cytohesin/ARNO family in response to specific cellular stimuli. Defects in this gene are associated with osteogenesis imperfecta, a connective tissue disorder characterized by bone fragility and low bone mass. |
| Reconstitution | We recommend that this vial be briefly centrifuged prior to opening to bring the contents to the bottom. Please reconstitute protein in deionized sterile water to a concentration of 0.1-1.0 mg/mL. We recommend to add 5-50% of glycerol (final concentration) and aliquot for long-term storage at -20°C/-80°C. Our default final concentration of glycerol is 50%. Customers could use it as reference. |
| Shelf Life | The shelf life is related to many factors, storage state, buffer ingredients, storage temperature and the stability of the protein itself. Generally, the shelf life of liquid form is 6 months at -20°C/-80°C. The shelf life of lyophilized form is 12 months at -20°C/-80°C. |
