

Rabbit anti-Mouse IgG Fab Antibody

Product Code	CSB-PA00590E0Rb
Storage	Upon receipt, store at -20°C or -80°C. Avoid repeated freeze.
Immunogen	Mouse IgG Fab fragment
Raised In	Rabbit
Species Reactivity	Mouse
Tested Applications	ELISA
Relevance	The fragment antigen-binding (Fab fragment) is a region on an antibody that binds to antigens. It is composed of one constant and one variable domain of each of the heavy and the light chain. These domains shape the paratope — the antigen-binding site — at the amino terminal end of the monomer. The two variable domains bind the epitope on their specific antigens.
Form	Liquid
Conjugate	Non-conjugated
Storage Buffer	Preservative: 0.03% Proclin 300 Constituents: 50% Glycerol, 0.01M PBS, PH 7.4
Purification Method	>95%, Protein G purified
Isotype	IgG
Clonality	Polyclonal
Product Type	Secondary Antibody
Usage	For Research Use Only. Not for use in diagnostic or therapeutic procedures.
