

Recombinant Human Nyctalopin (NYX)

Product Code	CSB-BP016237HU
Abbreviation	NYX
Storage	The shelf life is related to many factors, storage state, buffer ingredients, storage temperature and the stability of the protein itself. Generally, the shelf life of liquid form is 6 months at -20°C/-80°C. The shelf life of lyophilized form is 12 months at -20°C/-80°C.
Uniprot No.	Q9GZU5
Product Type	Recombinant Protein
Immunogen Species	Homo sapiens (Human)
Purity	>85% (SDS-PAGE)
Sequence	VGACARA CPAACACSTV ERGCSVRCDR AGLLRVPAEL PCEAVSIDLD RNGLRFLGER AFGTLP SLRR LSLRHNNLSF ITPGAFKGLP RLAELRLAHN GDLRYLHART FAALSRLRRL DLAACRLFSV PERLLAELPA LRELAAFDNL FRRVPGALRG LANLTHAHLE RGRIEAVASS SLQGLRRLRS LSLQANRVRA VHAGAFGDCG VLEHLLLNDN LLAELPADAF RGLRRLRTLN LGGNALDRVA RAWFADLAEL ELLYLDRNSI AFVEEGAFQN LSGLLALHLN GNRLTVLAWV AFQPGFFLGR LFLFRNPWCC DCRLEWLRDW MEGSGRVTDV PCASPGSVAG LDLSQVTFGR SSDGLCVDPE ELNLTSSPG PSPEPAATTV SRFSSLLSKL LAPRVPVEEA ANTTGGLANA SLSDSLSSRG VGGAGRQPWF LLASCLLPSV AQHVVFGLQM D
Source	Baculovirus
Target Names	NYX
Protein Names	Recommended name: Nyctalopin
Expression Region	24-481
Notes	Repeated freezing and thawing is not recommended. Store working aliquots at 4°C for up to one week.
Tag Info	Tag type will be determined during the manufacturing process.
Protein Length	Full Length of Mature Protein
Target Details	The product of this gene belongs to the small leucine-rich proteoglycan (SLRP) family of proteins. Defects in this gene are the cause of congenital stationary night blindness type 1 (CSNB1), also called X-linked congenital stationary night blindness (XLCSNB). CSNB1 is a rare inherited retinal disorder characterized by impaired scotopic vision, myopia, hyperopia, nystagmus and reduced visual acuity. The role of other SLRP proteins suggests that mutations in this gene disrupt developing retinal interconnections involving the ON-bipolar cells, leading to the visual losses seen in patients with complete CSNB.
Reconstitution	We recommend that this vial be briefly centrifuged prior to opening to bring the contents to the bottom. Please reconstitute protein in deionized sterile water to a concentration of 0.1-1.0 mg/mL. We recommend to add 5-50% of glycerol (final

concentration) and aliquot for long-term storage at -20°C/-80°C. Our default final concentration of glycerol is 50%. Customers could use it as reference.

Shelf Life

The shelf life is related to many factors, storage state, buffer ingredients, storage temperature and the stability of the protein itself.

Generally, the shelf life of liquid form is 6 months at -20°C/-80°C. The shelf life of lyophilized form is 12 months at -20°C/-80°C.
