

Recombinant Horse Interleukin-1 alpha (IL1A)

Product Code	CSB-BP636720HO
Abbreviation	IL1A
Storage	<p>The shelf life is related to many factors, storage state, buffer ingredients, storage temperature and the stability of the protein itself.</p> <p>Generally, the shelf life of liquid form is 6 months at -20°C/-80°C. The shelf life of lyophilized form is 12 months at -20°C/-80°C.</p>
Uniprot No.	Q28385
Product Type	Recombinant Protein
Immunogen Species	Equus caballus (Horse)
Purity	>85% (SDS-PAGE)
Sequence	SVHYNFQS NTKYNFMRIV NHQCTLNDAL NQSVIRDTSG QYLATAALNN LDDAVKFDMM AYTSEEDSQL PVTLRISKTR LFSVAQNEDE PVLLKEMPDT PKTIKDETNL LFFWERHGSK NYFKSVAHPK LFIATKQGKL VHMARGQPSI TDFQILDNQF
Source	Baculovirus
Target Names	IL1A
Protein Names	Recommended name: Interleukin-1 alpha Short name= IL-1 alpha
Expression Region	113-270
Notes	Repeated freezing and thawing is not recommended. Store working aliquots at 4°C for up to one week.
Tag Info	Tag type will be determined during the manufacturing process.
Protein Length	Full Length of Mature Protein
Target Details	<p>This protein is a member of the interleukin 1 cytokine family. This cytokine is a pleiotropic cytokine involved in various immune responses, inflammatory processes, and hematopoiesis. This cytokine is produced by monocytes and macrophages as a proprotein, which is proteolytically processed and released in response to cell injury, and thus induces apoptosis. This gene and eight other interleukin 1 family genes form a cytokine gene cluster on chromosome 2. It has been suggested that the polymorphism of these genes is associated with rheumatoid arthritis and Alzheimer s disease.</p>
Reconstitution	<p>We recommend that this vial be briefly centrifuged prior to opening to bring the contents to the bottom. Please reconstitute protein in deionized sterile water to a concentration of 0.1-1.0 mg/mL. We recommend to add 5-50% of glycerol (final concentration) and aliquot for long-term storage at -20°C/-80°C. Our default final concentration of glycerol is 50%. Customers could use it as reference.</p>
Shelf Life	<p>The shelf life is related to many factors, storage state, buffer ingredients, storage temperature and the stability of the protein itself.</p> <p>Generally, the shelf life of liquid form is 6 months at -20°C/-80°C. The shelf life</p>

of lyophilized form is 12 months at -20°C/-80°C.
