

# Recombinant Bovine Rho-related GTP-binding protein RhoH (RHOH)

<b>Product Code</b>	CSB-YP641321BO
<b>Abbreviation</b>	RHOH
<b>Storage</b>	The shelf life is related to many factors, storage state, buffer ingredients, storage temperature and the stability of the protein itself. Generally, the shelf life of liquid form is 6 months at -20°C/-80°C. The shelf life of lyophilized form is 12 months at -20°C/-80°C.
<b>Uniprot No.</b>	Q2HJG3
<b>Product Type</b>	Recombinant Protein
<b>Immunogen Species</b>	Bos taurus (Bovine)
<b>Purity</b>	>85% (SDS-PAGE)
<b>Sequence</b>	MLSSIKCVLV GDSAVGKTSL LVRFTSETFP EAYKPTVYEN TGVDVLM DGI QISLGLWDTA GNDAFRSIRP LSYQQADVVL MCYSVANHNS FLNLKNKWIG EVRSNLPCTP VLVVATQTDQ REVGPHRASC VNAIEGKRLA QDVRAKGYLE CSALSNRQVQ QVFEC AVR TA VNQARRRNR R RFFSINEC
<b>Source</b>	Yeast
<b>Target Names</b>	RHOH
<b>Protein Names</b>	Recommended name: Rho-related GTP-binding protein RhoH
<b>Expression Region</b>	1-188
<b>Notes</b>	Repeated freezing and thawing is not recommended. Store working aliquots at 4°C for up to one week.
<b>Tag Info</b>	Tag type will be determined during the manufacturing process.
<b>Protein Length</b>	full length protein
<b>Target Details</b>	This protein is a member of the Ras superfamily of small GTPases. Expression of a chimeric transcript of LAZ3 and this gene has been reported as a result of the translocation t(3;4) in non-Hodgkin s lymphomas. This gene encodes a small G-like protein, and unlike most other small G proteins which are expressed ubiquitously, this gene is transcribed only in hemopoietic cells.
<b>Reconstitution</b>	We recommend that this vial be briefly centrifuged prior to opening to bring the contents to the bottom. Please reconstitute protein in deionized sterile water to a concentration of 0.1-1.0 mg/mL. We recommend to add 5-50% of glycerol (final concentration) and aliquot for long-term storage at -20°C/-80°C. Our default final concentration of glycerol is 50%. Customers could use it as reference.
<b>Shelf Life</b>	The shelf life is related to many factors, storage state, buffer ingredients, storage temperature and the stability of the protein itself. Generally, the shelf life of liquid form is 6 months at -20°C/-80°C. The shelf life of lyophilized form is 12 months at -20°C/-80°C.
