

Recombinant Danio rerio Unique cartilage matrix-associated protein (ucma)

Product Code	CSB-MP740672DIL
Abbreviation	ucma
Storage	The shelf life is related to many factors, storage state, buffer ingredients, storage temperature and the stability of the protein itself. Generally, the shelf life of liquid form is 6 months at -20°C/-80°C. The shelf life of lyophilized form is 12 months at -20°C/-80°C.
Uniprot No.	Q6NWB6
Product Type	Recombinant Protein
Immunogen Species	Danio rerio (Zebrafish) (Brachydanio rerio)
Purity	>85% (SDS-PAGE)
Sequence	AVSD KRDAVNPQGA LRKIFMPEAD AASFFKRRSR RAVKTQDEIN AEQRQRLAAD ERRREYHEEQ RNKYENYAAE ENDEQDERTR EKTEQWREFH YDGLDPSY EY NRHTI
Source	Mammalian cell
Target Names	ucma
Protein Names	Recommended name: Unique cartilage matrix-associated protein Cleaved into the following chain: 1. Unique cartilage matrix-associated protein C-terminal fragment Short name= 2. Ucma-C Alternative name(s): Gla-rich protein Short name=
Expression Region	27-135
Notes	Repeated freezing and thawing is not recommended. Store working aliquots at 4°C for up to one week.
Tag Info	Tag type will be determined during the manufacturing process.
Protein Length	Full Length of Mature Protein
Reconstitution	We recommend that this vial be briefly centrifuged prior to opening to bring the contents to the bottom. Please reconstitute protein in deionized sterile water to a concentration of 0.1-1.0 mg/mL. We recommend to add 5-50% of glycerol (final concentration) and aliquot for long-term storage at -20°C/-80°C. Our default final concentration of glycerol is 50%. Customers could use it as reference.
Shelf Life	The shelf life is related to many factors, storage state, buffer ingredients, storage temperature and the stability of the protein itself. Generally, the shelf life of liquid form is 6 months at -20°C/-80°C. The shelf life of lyophilized form is 12 months at -20°C/-80°C.
