

# Recombinant Human Protein DGCR6L (DGCR6L)

<b>Product Code</b>	CSB-MP880133HU
<b>Abbreviation</b>	DGCR6L
<b>Storage</b>	The shelf life is related to many factors, storage state, buffer ingredients, storage temperature and the stability of the protein itself. Generally, the shelf life of liquid form is 6 months at -20°C/-80°C. The shelf life of lyophilized form is 12 months at -20°C/-80°C.
<b>Uniprot No.</b>	Q9BY27
<b>Product Type</b>	Recombinant Protein
<b>Immunogen Species</b>	Homo sapiens (Human)
<b>Purity</b>	>85% (SDS-PAGE)
<b>Sequence</b>	MERYAAALEE VADGARQQR HYQLLSALQS LVKELPSSFQ QRLSYTTLSL LALALLDGTV FEIVQGLLEI QHLTEKSLYN QRLRLQNEHR VLRQALRQKH QEAQQACRPH NLPVVQAAQQ RELEAVEHRI REEQRAMDQK IILELDRKVA DQQSTLEKAG VAGFYVTTNP QELMLQMNLL ELIRKLQQRG CRAGNAALGL GGPWQSPAAQ CDQKGSPVPP
<b>Source</b>	Mammalian cell
<b>Target Names</b>	DGCR6L
<b>Protein Names</b>	Recommended name: Protein DGCR6L Alternative name(s): DiGeorge syndrome critical region 6-like protein
<b>Expression Region</b>	1-220
<b>Notes</b>	Repeated freezing and thawing is not recommended. Store working aliquots at 4°C for up to one week.
<b>Tag Info</b>	Tag type will be determined during the manufacturing process.
<b>Protein Length</b>	full length protein
<b>Target Details</b>	This gene, the result of a duplication at this locus, is one of two functional genes encoding nearly identical proteins that have similar expression patterns. The product of this gene is a protein that shares homology with the Drosophila gonadal protein, expressed in gonadal tissues and germ cells, and with the human laminin gamma-1 chain that functions in cell attachment and migration. This gene is located in a region of chromosome 22 implicated in the DiGeorge syndrome, one facet of a broader collection of anomalies referred to as the CATCH 22 syndrome.
<b>Reconstitution</b>	We recommend that this vial be briefly centrifuged prior to opening to bring the contents to the bottom. Please reconstitute protein in deionized sterile water to a concentration of 0.1-1.0 mg/mL. We recommend to add 5-50% of glycerol (final concentration) and aliquot for long-term storage at -20°C/-80°C. Our default final concentration of glycerol is 50%. Customers could use it as reference.
<b>Shelf Life</b>	The shelf life is related to many factors, storage state, buffer ingredients,

storage temperature and the stability of the protein itself.  
Generally, the shelf life of liquid form is 6 months at -20°C/-80°C. The shelf life of lyophilized form is 12 months at -20°C/-80°C.
