

Recombinant Human CDC42 small effector protein 2 (CDC42SE2)

Product Code	CSB-BP882090HU
Abbreviation	CDC42SE2
Storage	The shelf life is related to many factors, storage state, buffer ingredients, storage temperature and the stability of the protein itself. Generally, the shelf life of liquid form is 6 months at -20°C/-80°C. The shelf life of lyophilized form is 12 months at -20°C/-80°C.
Uniprot No.	Q9NRR3
Product Type	Recombinant Protein
Immunogen Species	Homo sapiens (Human)
Purity	≥85% (SDS-PAGE)
Sequence	MSEFWLCFNC CIAEQPQPKR RRRIDRSMIG EPTNFBVHTAH VGSGDLFSGM NSVSSIQNQM QSKGGYGGGM PANVQMLVD TKAG
Source	Baculovirus
Target Names	CDC42SE2
Protein Names	Recommended name: CDC42 small effector protein 2 Alternative name(s): Small effector of CDC42 protein 2
Expression Region	1-84
Notes	Repeated freezing and thawing is not recommended. Store working aliquots at 4°C for up to one week.
Tag Info	Tag type will be determined during the manufacturing process.
Protein Length	full length protein
Reconstitution	We recommend that this vial be briefly centrifuged prior to opening to bring the contents to the bottom. Please reconstitute protein in deionized sterile water to a concentration of 0.1-1.0 mg/mL. We recommend to add 5-50% of glycerol (final concentration) and aliquot for long-term storage at -20°C/-80°C. Our default final concentration of glycerol is 50%. Customers could use it as reference.
Shelf Life	The shelf life is related to many factors, storage state, buffer ingredients, storage temperature and the stability of the protein itself. Generally, the shelf life of liquid form is 6 months at -20°C/-80°C. The shelf life of lyophilized form is 12 months at -20°C/-80°C.
