

Recombinant Human SERTA domain-containing protein 3 (SERTAD3)

| | |
|--------------------------|---|
| Product Code | CSB-EP892129HU |
| Abbreviation | SERTAD3 |
| Storage | The shelf life is related to many factors, storage state, buffer ingredients, storage temperature and the stability of the protein itself. Generally, the shelf life of liquid form is 6 months at -20°C/-80°C. The shelf life of lyophilized form is 12 months at -20°C/-80°C. |
| Uniprot No. | Q9UJW9 |
| Product Type | Recombinant Protein |
| Immunogen Species | Homo sapiens (Human) |
| Purity | ≥85% (SDS-PAGE) |
| Sequence | MVGGLKRKHS DLEEEERWE WSPAGLQSYQ QALLRISLDK VQRSLGPRAP SLRRHVLIHN TLQQLQAALR LAPAPALPPE PLFLGEEDFS LSATIGSILR ELDTSMDGTE PPQNPVTPLG LQNEVPPQPD PVFLEALSSR YLGDSGLDDF FLDIDTSAVE KEPARAPPEP PHNLFCAPGS WEWNELDHIM EIILGS |
| Source | E.coli |
| Target Names | SERTAD3 |
| Protein Names | Recommended name: SERTA domain-containing protein 3 Alternative name(s): Replication protein-binding trans-activator Short name= RPA-binding trans-activator |
| Expression Region | 1-196 |
| Notes | Repeated freezing and thawing is not recommended. Store working aliquots at 4°C for up to one week. |
| Tag Info | Tag type will be determined during the manufacturing process. |
| Protein Length | full length protein |
| Target Details | This protein was identified in a yeast two-hybrid assay employing the second subunit of human replication protein A as bait. It is localized to the nucleus and its expression is significantly higher in cancer cell lines compared to normal cell lines. This protein has also been shown to be a strong transcriptional co-activator. Alternative splicing has been observed at this locus and two variants, both encoding the same protein, have been identified. |
| Reconstitution | We recommend that this vial be briefly centrifuged prior to opening to bring the contents to the bottom. Please reconstitute protein in deionized sterile water to a concentration of 0.1-1.0 mg/mL. We recommend to add 5-50% of glycerol (final concentration) and aliquot for long-term storage at -20°C/-80°C. Our default final concentration of glycerol is 50%. Customers could use it as reference. |
| Shelf Life | The shelf life is related to many factors, storage state, buffer ingredients, |

storage temperature and the stability of the protein itself. Generally, the shelf life of liquid form is 6 months at -20°C/-80°C. The shelf life of lyophilized form is 12 months at -20°C/-80°C.
