About CUSABIO

After 12 years of effort, CUSABIO has become a good partner to researchers worldwide. We are dedicated to provide **60,000+** validated antibodies, **7000+** recombinant proteins, **603+** active proteins, **13,000** cDNA clones and thousands of ELISA kits to global customers in the research fields of cancer, cell biology, immunology, neuroscience, epigenetics, etc.

The quality of our products is the cornerstone of our ability to serve our clients. For this reason, we invest tremendous resources in developing products, validating customers' applications, managing, controlling and improving quality.

Research Areas

6 reasons you should choose Cusabio Antibodies

01 Huge product variety and fast development speed

02 Based on industry hot spots and big data

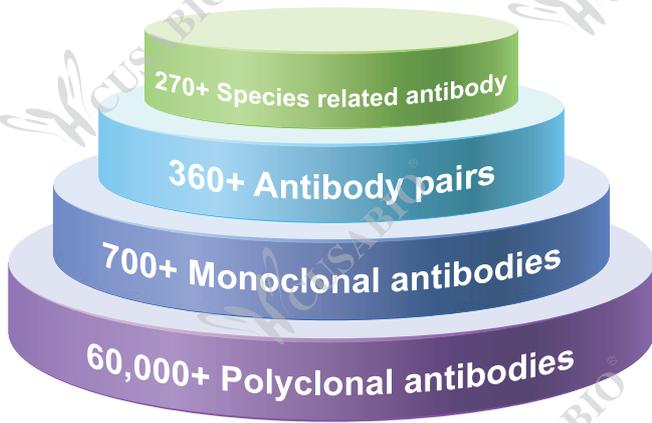

03 More epitope recognition, higher specificity

04 Validated in multiple applications and quality guaranteed

05 Produced and validated in-house, enough stock, short lead time, constant supply

06 All the validated images reach the standard level of publication

Feature 1

Continuous increasing

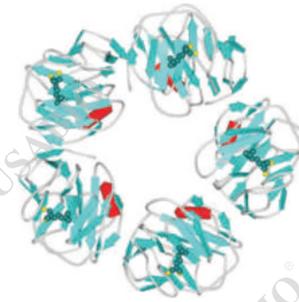

Feature 2

Research & Discovery of new products are based on industry hot spots and big data analysis

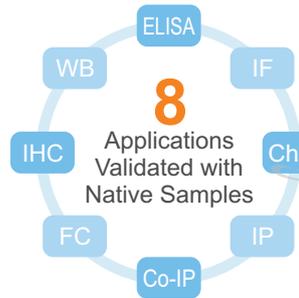

Feature 3

Immunogen:

- Recombinant proteins
- Native proteins
 - More epitope recognition
 - Better specificity

Feature 4

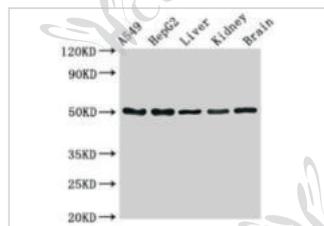

- Validated in multiple applications
- Quality Guaranteed for all samples and applications that have been validated by Cusabio
 - Effectiveness
 - Repeatability

Feature 5

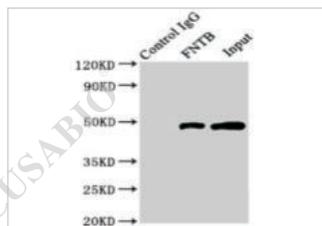

Produced and validated in-house, enough stock, short lead time, constant supply.

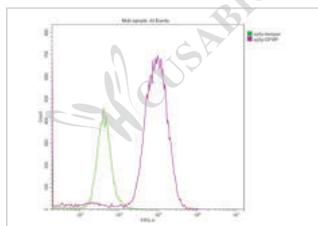

All the validated images reach the standard level of publication.
We can validate in other applications we have upon customers' requests.
