

Mouse anti- ofloxacin monoclonal antibody

Catalog Number: CSB-MA003311I0m

Synonym Names	Floxin, Tarivid, Ofloxacin, Oflocet, Exocin, Ocuflox, Oxaldin, Visiren, Exocine
Product type	Primary antibodies
Description	Mouse monoclonal to ofloxacin
Clonality	monoclonal
Isotype	IgG2b
Purity	>95% by Caprylic Acid Ammonium Sulfate Precipitation purified
Conjugate	Non-conjugated
Storage buffer	Preservative: 0.03% Proclin 300 Constituents: 50% Glycerol, 0.01M PBS, PH 7.4
Storage	Shipped at 4°C Upon delivery aliquot and store at -20°C or -80°C. Avoid repeated freeze.
Form	Liquid
Raised in	Mouse
Clone Number	003311
Tested applications	ELISA ,Immune colloidal gold, Immunochromatography
Introduction	Ofloxacin is a synthetic chemotherapeutic antibiotic of the fluoroquinolone drug class considered to be a second-generation fluoroquinolone. The original brand, Floxin, has been discontinued by the manufacturer in the United States on 18 June 2009, though generic equivalents continue to be available. Like other quinolones, ofloxacin has been associated with a significant number of serious adverse drug reactions, such as tendon damage (including spontaneous tendon ruptures) and peripheral neuropathy (which may be irreversible).
